HPRC®

plaber®

CERTIFIED QUALITY

HPRC cases provide total protection to the carried equipment and can be used for all sorts of applications in OEM, B2B and B2C industries. They are 100% recyclable, ultra-light, watertight and resistant to shocks, acids, impacts, dust, and chemicals. On top of that, they are customisable. All HPRC cases meet high qualitative certified standards and have undergone stringent tests based on national and international regulations / standards.

CERTIFICATIONS	
IP67: water/dust resistance	✓
STANAG 4280: drop/impact resistance	✓
DEF STAN 81-41: drop/impact resistance	✓
ATA300: Air Transport Association compliant	✓
MIL STD-810F Method 502.4: low temperature resistance	✓
UL94 V-0: flame retardant material (on request)	✓
ESD: conductive/antistatic material (on request)	✓

TEST	
UV material protection	✓
UV color protection	✓
Temperature: -40° C / +80° C	✓

Made of PA + GF, the closing latches are extremely sturdy. They are equipped with a twostep opening / closing system to ensure fluidity of movement and to prevent the hooks from opening in the event of a fall.

All handles are made of PP and SEBS materials, which provide:
- high quality ergonomic grip and secure grip, even at low temperatures and wet conditions
- no-slip for better control and safety, also in presence of oils, grease and liquids
- scratch protection
- long durability.

All extensible trolley handles, made of ALU + SEBS, feature this ergonomic handle.

The internal O-ring, which runs along the entire perimeter of the lid, is made of expanded EPDM and guarantees the case's watertight qualities.

AirEx is an automatic purge valve. Its auto press release adjusts to changing environments automatically and helps avoiding the valve from detaching from the case itself.
The valve works through a GVS medical filter which allows the air exchange while protecting from water, dust and sand.

TTX01® enhanced compound, based on pp, balanced with additional high performance resins. The cases are
- lighter in weight and stronger in robustness
- acidproof
- scratchproof
- able to resist to extreme weather conditions and temperature changes (from - 40° C up to 80° C).

The external surface has a pleasant touch embossing effect.

The pins of the cases are made of stainless steel.

Made of PA66 + TPU, HPRC wheels are extremely versatile:
- great grip both in wet and dry conditions
- sure-footedness on all fields (asphalt, sand, stones, snow, porphyry)
- rolling smoothly for hundreds of miles
- easy wheels replacement
- increased wheels durability.

All HPRC cases are 100% recyclable, ultra-light, watertight and resistant to shocks, acids, impacts, dust, and chemicals. On top of that, they are customizable.

laser OK!					ECO	MADE IN ITALY	LifeTime LTW Warranty HPRC
Customization with our laser service	**IP67 certification:** dustproof and watertight	**Resistant to mould,** parasites, acids	**Maximum resistance** to impacts, drops and pressure	**Resistant to weather** and high temperature fluctuations (-40° C to +80° C)	**100% recyclable**	**100% made in Italy**	**Lifetime warranty**

LASER DESIGN

No minimum order quantity.
Technical support, graphic development and fast turnaround.

Examples of laser customization. The laser engraving customization color is grey (monochrome).

CUSTOMIZED FOAMS

Injection inlays

Milled and water cut foams

High-visibility inlays

We can create any custom foam interiors.

LOGOS/TEXTS

laser engraving

silk-screen print (colored)

label

Logos/texts can be realized with:

- laser engraving
- silk-screen print (colored)
- label.

CUSTOMIZED LIDS

Use the lid as a glove compartment and customize it in terms of color, size, and layout.

CUSTOMIZED COLORS

Choose your preferred color for the whole case, for the shell or just for some components (handles, wheels, latches, …).

CUSTOMIZED CASE STRUCTURES

Removable lid.
Machine molded columns

The shell can be tailored made both internally and externally.
Customized holes (for connectors, air ventilation, ...) and molded solutions for panels are only a few examples.

FULLY CUSTOMIZED CASES

Our know-how and expertise allow us to meet any customers' requirement, either OEM, B2B or B2C.

FLAME RETARDANT MATERIALS

Plaber can make on request UL94 V-0 certified cases.

UL94 is a plastics flammability standard that determines whether a material will extinguish or spread a flame once it has been ignited.

V-0: is a classification of this standard: burning stops within **10 seconds**.

Tripod support platform for HPRC cases up to HPRC2550W model

HPRC product range is completed by soft bags and flight cases.

HPRC soft bags are customizable. You can:

- Choose the desired color
- Add customized logos/texts
- Define the dimensions according to your specific needs
- Customize the interior.

HPRC flight cases are also customizable. You can:

- Add customized logos/texts
- Define dimensions to suit your specific needs
- Customize the interior.

Plaber, a company of the IRVE | Industrie Riunite Veneto Emiliane Group, designs and manufactures high-resistant solutions able to meet any requirement for safe transport, handling and storage:

HPRC | High-Performance Resin Cases: professional and protective hard resin cases engineered to be indestructible.
Alstora | Protective Storage Boxes: hyper-resistant containers capable of handling any environment and temperature.
ConeCarts | High-Performance Multipurpose Carts: solutions for handling, protection, and storage.

IRVE represents the first Italian industrial project that brings together the manufacturing excellences of the plastics supply chain located in Northeastern Italy. Its primary goal is to provide customers with products and services of absolute excellence.
